## from Jonathan Dickinson State Park

OCTOBER 2020

For 13 years, Fire Fest has drawn crowds from the surrounding community to witness spectacular demonstrations of prescribed fire and learn about its essential benefits. For many, attending this annual event has become a tradition and October has become synonymous with prescribed fire at Jonathan Dickinson.

While circumstances prevent us from holding the large event, we would like to share some memories of past Fire Fests and provide a taste of the night burn experience. In addition to the short video we are sharing [here](#) today, we will be releasing *Inside Rx Fire at Jonathan Dickinson State Park*, a feature presentation

about prescribed fire in the park. More details to come!

We sincerely look forward to connecting with our community in this new and different way, as we prioritize safety and health.

And, of course, we anticipate a more exciting Fire Fest than ever in 2021!

## New Friends of JDSP Website

You may have noticed that The Friends of Jonathan Dickinson State Park have a brand new website. Visit today to learn more about the park's citizen support organization and how you can get involved!

[www.friendsofjdsp.org](http://www.friendsofjdsp.org)

As part of the Friends' website upgrade, there is also a new newsletter platform. Because of this change, the next newsletter will look a bit different and come from a new email address. Be sure to watch your inbox and spam folder for the next newsletter, which will come from The Friends of Jonathan Dickinson State Park ([admin@friendsofjdsp.org](mailto:admin@friendsofjdsp.org)).
